# BRACKETS BY J. COLE (2018)

I pay taxes, so much taxes, \*\*\*\* don't make sense  
Where do my dollars go? You see lately, I ain't been convinced

I guess they say my dollars supposed to build roads and schools  
But my \*\*\*\*\* barely graduate, they ain't got the tools

Maybe 'cause the tax dollars that I make sure I send  
Get spent hirin' some teachers that don't look like them  
And the curriculum be tricking them, them dollars I spend....

... If I'm givin' y'all this hard-earned bread, I wanna know  
Better yet, let me decide, \*\*\*\*\* , it's 2018  
Let me pick the things I'm funding from an app on my screen.

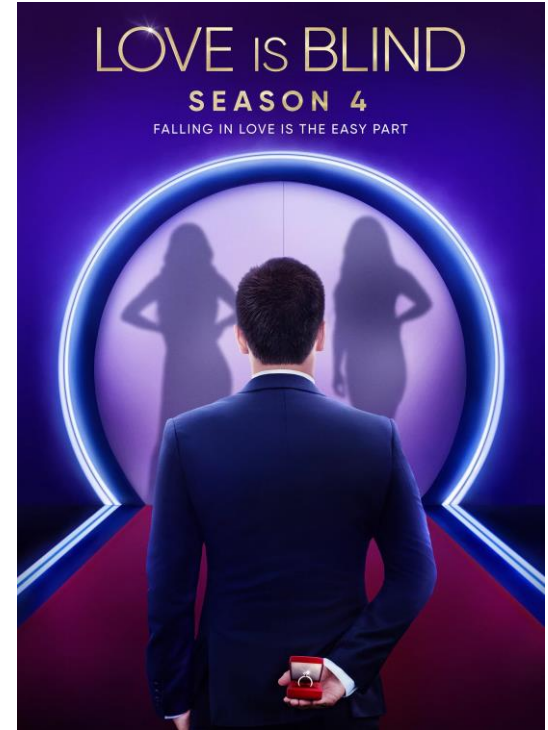

ECONOMICS = THE SCIENCE OF CHOICE

PEOPLE CHOOSE. EVERY DECISION IS AN ECONOMIC ONE.
